Our New Building

In honor of the official dedication of the new High School Building on February 10, 1970, an American Flag and a Salvadorean Flag were presented to the Escuela Americana. The American Flag was presented by Ambassador William G. Bowdler and the Salvadorean Flag was presented on behalf of the P. T. A. by Mrs. Carmel Sagrera.

HEADMASTER

Mr. JOHN P. MALONEY

MESSAGE TO GRADUATES

This year a long-cherished dream has come true and our beautiful new high school building stands as a tribute to the faith and vision of those forward-looking parents who saw in the small house where classes were held at the old high school site the beginning of a new era in education for the Escuela Americana. How proud they must be to look upon the phenomenal growth of the secondary section of the school which in a few short years has seen their dream become a reality!

In June you will enjoy the privilege of being the first class to graduate from the new school; and it is indeed an honor to be the first of a long line of graduating classes which in the future will leave this school to achieve success and distinction in professional and commercial careers.

Most of you will be continuing your education at the university level at home or abroad. In the years immediately ahead you will acquire

greater responsibilities. Your studies at the university will require greater preparation and greater dedication. You will have to choose your life's work which is often a difficult decision to make. You will have to identify and cherish those values in life which you know to be true and lasting. You will have to choose your companions carefully rejecting those who would involve you in the defiance of authority and the flouting of the law; rejecting also those whose personal conduct and habits are repugnant to the acceptable norms of decent and orderly behavior. In short, in the years just ahead you must

determine the best road to follow so that one day in the not-too-distant future you will take your place proudly among the valued and productive members of society.

Your teachers and I are confident that you have the background and training to recognize the true values upon which a happy and useful life depend and the wisdom to invoke these values when difficult decisions must be made.

You graduate with our heartfelt wishes for your future success. May God keep you in the hollow of His hand!

John P. Maloney, Headmaster.

MC 72 la máquina eléctrica de escribir con la nueva memoria de tarjeta magnética

Una máquina que, a las características normales de una máquina de escribir suma adelantos increíbles y aumenta la productividad de la sección mecanografía sin necesidad de un esfuerzo adicional. La MC 72 aporta a la mecanografía una serie de mejoras:

- aumento considerable del poder de mecanografía tanto en velocidad como en productividad;
- impresión mecanográfica perfecta;
- cambio de estilo de letra en cualquier momento gracias al uso de un monoelemento impresor intercambiable;
- grabación magnética del texto, que elimina la necesidad de volver a mecanografiar pasajes modificados.

Pero la característica exclusiva de esta máquina es que su memoria es totalmente original.
